

THE WINNING WAYS TO SAVE LIST

WATER SAVINGS

Don't let water run — turn off the water while brushing your teeth or washing the dishes.

Report all leaks and running toilets.

Take short showers instead of baths.

Wash only full loads of clothes and dishes.

ENERGY SAVINGS

Keep programmable thermostats set at recommended temperatures.

Use energy-saving light bulbs.

Turn off lights when you leave the room.

Turn off your computer, your computer monitor and all your entertainment devices when not in use. (Plug them into power strips and turn off the power strip when not in use).

Use sunlight for lighting.

Unplug phone and other chargers when not in use.

Keep windows and doors closed when your heat or air conditioning is on.
