

NAHRO Community Service Awards

The National Association of Housing and Redevelopment Officials (NAHRO) presented the Distinguished and Notable Service Awards to Constellation Energy at NAHRO's 2009 National Conference and Exhibition in Washington, D.C. on Oct. 4, 2009.

NAHRO's Community Service Awards recognize outstanding businesses or individuals engaged in voluntary community service for the benefit of a resident, a local housing authority, a community development agency, or other entity involved in providing low-income housing or serving that population.

More than 125 volunteers from Constellation Energy dedicated 3,600 hours over two weeks in September 2008.

NAHRO recognized Constellation Energy for its project to renovate the Salvation Army's Boys and Girls Club of Franklin Square in Baltimore, Maryland. Volunteers performed an extreme makeover on the Salvation Army's busiest Boys and Girls Club in Baltimore. Employees replaced old and worn equipment, demolished and reconstructed rooms, added lighting and safety equipment, installed IT hardware and software, and decorated every room with new paint, flooring and furniture. Altogether, Constellation Energy contributed more than \$214,000 in estimated labor, materials and in-kind donations to the project. As a result of the project, the newly renovated Club doubled its capacity and now provides 150 at-risk children with a safe and comfortable place to play and learn.

“The support that Constellation Energy has provided us demonstrates to these kids and their community that they are not alone and that there are people who care about them and want to help.”

Major Roger Coulson, Baltimore Area
Commander of the Salvation Army
